ABOUT US

Our Story

Since our inception in 2021, we have embodied an unwavering commitment to excellence. Guided by our seasoned team, we are dedicated to crafting and delivering the highest-quality products to our valued customers. Driven by our innate passion, we continuously strive to innovate, package, and present cutting-edge solutions for a healthier lifestyle. Central to our approach is the meticulous selection of fruits and vegetables, harvested at the peak of their seasons, ensuring optimal freshness and nutritional value in every product we offer.

Vision

Rather than claiming to be a global leader, we sustain our vision as a strong market player, enriching lives and elevating the industry through our commitment to providing fresh, high-quality products, advanced technology, and superior hygiene standards. With a focus on excellence and customer satisfaction, we continuously strive to innovate and improve, ensuring that our offerings meet the highest standards of quality and freshness.

Our Philosophy

With our customer-centric approach, we combine our passion for the highest quality fresh products with sustainable resources and support transformation in nutrition. While offering the best to our customers with high hygiene standards and premium quality, we strive for continuous improvement of our products using high technology every day.

HIGHEST QUALITY FRESH PRODUCE USAGE

- **Ideal Location Selection:** Our priority is to establish our production facility in a strategically located area equidistant to efficient and high-quality fruit and vegetable production zones.
- **Mindful Utilization of Geographical Indication Products:** We meticulously select and utilize geographical indication products, respecting their unique characteristics and origins to ensure authenticity and quality.
- **Expert Oversight Throughout the Production Cycle:** Our seasoned agriculture personnel closely monitor every stage of production, from seed selection and germination to the growth and fruition of plants, guaranteeing meticulous care and attention to detail.
- **Efficient Processing and Immediate Packaging:** Fruits and vegetables are promptly processed and packaged without delay, ensuring maximum freshness and quality preservation from harvest to consumption.

HIGH HYGIENE STANDARDS

- **Emphasis on Facility Cleanliness:** We prioritize maintaining impeccable cleanliness standards throughout our facilities to uphold product integrity and safety.
- **Rigorous Equipment Sanitation:** Our equipment undergoes stringent sanitation procedures to prevent contamination and ensure the highest standards of hygiene.
- **Employee Hygiene Standards and Supervision:** We enforce strict hygiene protocols for all employees and provide continuous supervision to uphold hygiene standards at all times.
- **State-of-the-Art Air and Water Filtration Systems:** Our facilities are equipped with advanced air and water filtration systems to maintain optimal purity levels, safeguarding the quality of our products.
- **Cutting-Edge Technology for Air and Water Quality Control Automation:** Leveraging the latest technological innovations, we implement automated systems for precise monitoring and control of air and water quality, ensuring consistently high standards across our operations.

OUR PRINCIPLES

COMPLIANCE WITH INDUSTRY STANDARDS AND REGULATIONS

- Integration of High Technology: Employing advanced technological solutions to ensure adherence to industry standards.
- Mandatory adherence to rigorous protocols throughout the supply chain process to guarantee compliance with regulations.

ECOFRIENDLY

- Sustainable Resource Management.
- Zero Waste Initiatives.

SUPPORT FOR NUTRITION TRANSFORMATION

- Emphasis on Premium Quality.
- Elimination of Additives.

SOCIAL RESPONSIBILITY

- Support for Local Agricultural Initiatives.
- Empowerment of Women Producers and Employees through Positive Discrimination.

**FEATURES OF
PRODUCTS**

We can produce our products in 5 different types, which vary according to the cutting method and crushing method.

1-SLICING TYPE PRODUCTS

Cube: Dried fruits or vegetables cut into small cubes. It is ideal for snacks, desserts, and dishes.

Julienne: Dried fruits or vegetables delicately sliced into long, thin strips, ideal for direct consumption, adding flair to salads, or enhancing various dishes.

Slice: Dried fruits or vegetables expertly cut into thin pieces, suitable for direct consumption, culinary applications, and garnishing dishes.

PRODUCT
GROUP

2-CRUSHING TYPE PRODUCTS

Granule: Dried fruits or vegetables finely chopped into small grains, offering a delightful texture and rich flavor perfect for enhancing salads, cereals, snacks, and desserts.

Powder: Dried fruits or vegetables finely ground into a smooth powder, offering convenience and versatility. This easily dissolvable form can be seamlessly incorporated into a wide range of dishes and beverages.

FRUITS

Our products are made from carefully selected fresh fruits grown in various regions of Turkey. Each fruit is individually inspected, cleaned, cut, and gently dehydrated to achieve the desired moisture level. The dehydration process removes the water without adding any additives, making the fruits ready for consumption. This process allows the fruits to be consumed off-season while extending the shelf life of the products. Additionally, the fresh fruits retain their natural flavors and nutritional values.

Our healthy and natural products provide an ideal solution for restaurants, hotels, catering companies, and food producers seeking a healthy and natural alternative. We offer our healthy and delicious snack products in a variety of fruit options, including slices, julienne cuts, cubes, powders, and granules.

- **Completely natural, dried fruit without color or additives**
- **Chewable fibrous texture**
- **Intense flavor**
- **Natural long-lasting aroma**
- **Customizable moisture level**
- **Year-round supply**
- **Long shelf life**
- **Ability to remove center of the apples with seeds**
- **Peelable options for products, with or without peel**

VEGETABLES

It is produced from fresh vegetables grown in various regions of Turkey and carefully selected. The vegetables are individually inspected, cleaned, cut, and gently dried to the desired moisture level. This process, which involves removing the water from the vegetables through dehydration, preserves their natural flavors and nutritional values while facilitating storage and transportation.

Dried vegetables a practical and healthy alternative. Ideal for restaurants, hotels, catering companies, and food producers looking for a healthy and natural alternative, these products can also add flavor and color to dishes such as soups, rice dishes, casseroles, and salads. They can also be consumed as a lightweight and portable snack during travels or camping trips.

We offer our healthy and delicious snack products with a wide range of vegetable options, available in slices, julienne, cubes, powder, and granules.
